FLAT SWIVEL UNITS
## SERIES SF-C

▶ PRODUCT ADVANTAGES

"The superior"

▶ **Up to 100% more performance than the benchmark**

Superior end position damping lets you swivel more mass in the shortest amount of time, increasing your machine's component output
▶ **Large centre bore**

Reduce the interference contours in your application by placing your power supply line directly through the middle of the rotary flange

▶ **More than 100% higher radial bearing load than the benchmark**

The generously scaled bearings stand for robustness and long service life and provide the highest process reliability for your application

▶ BENEFITS IN DETAIL

1 **Two way ball bearing hollow shaft**
- for feedthrough cables and hoses
- high forces and moments capacity

2 **Up to 8 way integrated air feed-through**
- for hoseless air transfer
- hose package does not have to be pivoted

3 **Adjustable end position**
- +/- 3° adjustable end position

4 **Large, precise locating flange**
- simple tool connection

5 **Integrated shock absorbers with spiral groove technology**
- adjustable end position damping
- heating is prevented through installation in pneumatic pressure chamber

6 **Air flow control valve**
- for speed regulation (included in the delivery)

7 **Force transfer**
- rack and pinion

8 **Drive**
- two double-acting pneumatic cylinders
- high torque rating

FLAT SWIVEL UNITS
SERIES SF-C

► HOW TO ORDER CORRECTLY

Order no.			SF	☐	☐	-C
Flat swivel units						
Installation size				**50**		
Installation size				**74**		
Installation size				**100**		
Installation size				**125**		
Installation size				**155**		
Installation size				**195**		
Swivel angle 0° - 180°, infinitely variable					**N**	
Integrated hoseless pneumatic feed-through, 4-way					**D4**	
Integrated hoseless pneumatic feed-through, 6-way					**D6**	
Integrated hoseless pneumatic feed-through, 8-way					**D8**	
Rotation angle 90°					**-90N**	
Integrated hoseless pneumatic feed-through, 4-way					**-90D4**	
Integrated hoseless pneumatic feed-through, 6-way					**-90D6**	
Integrated hoseless pneumatic feed-through, 8-way					**-90D8**	
Rotation angle 180°					**-180N**	
Integrated hoseless pneumatic feed-through, 4-way					**-180D4**	
Integrated hoseless pneumatic feed-through, 6-way					**-180D6**	
Integrated hoseless pneumatic feed-through, 8-way					**-180D8**	
Version: ML (Size SF50 / SF74 / SF100)						
► At -90° and +90° position, mechanical and shock-absorbed fixed stop						
► 0° position is not locked, as opposed to the M version						
► For these units, the driven pistons move against dominant limit stop pistons and, like for the locked center position, undergo shock absorption while moving into end position						
► Simplified activation for horizontal rotary movements						
Swivel angle -90° - 0° - +90°					**ML**	
Integrated hoseless pneumatic feed-through, 4-way					**MLD4**	
Integrated hoseless pneumatic feed-through, 6-way					**MLD6**	
Integrated hoseless pneumatic feed-through, 8-way					**MLD8**	
Version: M (Size SF125 / SF155 / SF195)						
► All three positions for mechanical and shock-mounted fixed stop						
► 0° center position using two stopper pistons with integrated shock absorbers						
► A mechanical fixed stop is generated using ratchet bolts that are pushed through arrester pistons into the ring groove of the stopper piston						
Swivel angle -90° - 0° - +90°					**M**	
Integrated hoseless pneumatic feed-through, 4-way					**MD4**	
Integrated hoseless pneumatic feed-through, 6-way					**MD6**	
Integrated hoseless pneumatic feed-through, 8-way					**MD8**	

► **VERSION: ML (SIZE SF50 / SF74 / SF100)**

► **VERSION: M (SIZE SF125 / SF155 / SF195)**

▶ **INCLUDED IN DELIVERY**

2 [piece] Flow Control Valves - with Swivel joint **DRV1-8X6**	6 [piece] O-Ring **COR0030100**

▶ **RECOMMENDED ACCESSORIES**

ENERGY SUPPLY

DSV1-8
Pressure safety valve

DSV1-8E
Pressure safety valve with quick exhaust

SENSORS

MFS02-K-KHC-P1-PNP
Magnetic field sensor straight, cable 5 m

MFS02-S-KHC-P1-PNP
Magnetic field sensor straight, cable 0.3 m - M8 connector

CONNECTIONS / OTHER

ANS0017
Attachment Kit

KAG500
Plug-in connector Straight Cable 5m - Socket M8 (female)

S8-G-3
Plug-in connector customizable Straight - Connector M8

▶ **RECOMMENDED ACCESSORY ATTACHMENT KIT**
NJ8-E2
Inductive proximity switch - Cable 5 m

NJ8-E2S
Inductive proximity switch - Connector M8

KAW500
Plug-in connector Angled Cable 5m - Socket M8 (female)

FLAT SWIVEL UNITS
SERIES SF-C FUNCTIONAL DESCRIPTION
Pressure safety valve – DSV
Ensures safe retention of force and position if the system pressure drops

The integrated double check valve, which can be unlocked, retains the system pressure of the swivel unit in case of EMERGENCY STOP. To ensure the function, the valve must be installed as close to the swivel unit's air connection as possible. In variant E, two pushbuttons are installed that allow for controlled bleeding of the swivel unit.

⌐ **SENSORS**

MFS02

1-point magnetic field sensors – MFS
For non-contact sensing of the piston position

These sensors are clamped in the C-groove of the swivel unit and detect the magnet attached to the piston of the swivel unit. To ensure use in a wide variety of space conditions, the sensors are available in two versions. While the horizontal MFS02, with straight cable outlet, disappears into the C-groove of the swivel unit almost completely, the vertical MFS01 is taller, but has a cable outlet that is offset at an angle of 90°. The variants are available in versions with 5 m cables with exposed leads and 0,3 m cable with connector.

Attachment kit

The attachment kit is mounted on the pivot unit by the mounting hardware included in the scope of delivery and serves as an external stop. Thanks to the external stop, the force is dispersed through the housing and prevents the rack and pinion from being overloaded. The attachment kit also makes it possible to sense the end positions via inductive proximity switches.

Plug-in connectors

For extending and fabricating the connection lines for the sensors

Cables with a length of 5 m with exposed leads are available. Depending on the specific needs, the cables can be shortened or fabricated with connectors in sizes M8 and M12.
